Rebecca Price-Hall, Watershed & Grant Coordinator

City of Trinidad Climate Change Report and Adaptation Response

Draft documents for review

The City of Trinidad invites the public, agencies and other stakeholders to review and comment on a draft document *Climate Change Vulnerability Report and Adaptation Response*. The report is available for public review on the City website at www.trinidad.ca.gov. There will be a presentation of the report and opportunity to provide feedback at the upcoming Trinidad Bay Watershed Council meeting to be held Tuesday April 26 at 6:30 pm at Trinidad Town Hall. Meeting information is available at www.trinidadwatersheds.org.

The report presents potential effects that could result from climate change, determines areas that could be at risk, and identifies preliminary adaptation strategies the City could adopt to mitigate the potential climate impacts. The *Climate Change Vulnerability Report and Adaptation Response* is being developed as part of the City's Local Coastal Program Update Project, funded in part by the Coastal Commission. During this project, climate change considerations and adaption responses will be incorporated into the General Plan / Coastal Land Use Plan as appropriate.

For additional information about the project, please contact City Planner Trever Parker at trever@streamlineplanning.net or (707) 822-5785.

Please submit your comments to the City of Trinidad by Monday, May 23, 2016.
